More about me

I am a creative UX/UI Designer who is always eager to learn new things and skills. I have one year of experience working on projects, and my passion is designing modern responsive websites and mobile app. I have a deep understanding of app, web, and graphic design practices like color schemes, typography, consistency, user-friendliness, and more. I have experience working with teams and brainstroming. I can create wireframes and varying levels of fidelity, and enjoy prototyping ideas. I have front-end coding experience, and enjoy working with devs to build ideas out.

My point of view, and a few thoughts on product design:

I care about the details and consider the product design of affordances to be crucial in creating effective, intuitive interfaces. I like prototyping - it helps me think through interaction models and new possibilites.

Education

- Faculty for physical education, sport and health;
- UX & UI Academy - Brainster;
- Course for Modern HTML and CSS, Udemy;
- Course for Advanced CSS and Sass, Udemy;
- Course for Master Figma, Udemy;

EXPERIENCE

upwork | Freelancer

Worked on different projects and long tearm jobs as: Graphic designr, UX & UI Designer

BRAINSTER | Student Projects

- **White Noise Player – Shum**
  A responsive platform where everyone will have the opportunity to get involved for free and play a certain melody while working.

- **Brainster Next**
  A responsive, functional, reviewed website whose primary goal was conversions, icompleted applications from candidates.

- **Vidi vaka**
  A responsive platform where Vidi Vaka is not only a medium, but also storytelling studio. The new website should display their work in a dynamic way and the different storytelling formats they offer and emphasize it the quality of the same.

- **Brainster Learn**
  Mobile application for Micro Learning and Case Study Learning

- **Gallery 94**
  E - Shop for art paintings and equipment
